Title: Semiconductor on Insulator Device Architecture and Method of Construction

Preliminary Amendment A

Mail Stop Patent Application
Commissioner of Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This is a continuation of application serial number 10/001,473, filed November 1, 2001 which claims priority under 35 USC 119(e)(1) of provisional application serial number 60/257,326 filed 12/20/2000. In the parent application, claims 1-6 were cancelled without prejudice in response to an Office action dated January 15, 2003 so the allowable claims will issue. These claims are copied in their entirety to this continuing application as claims 1-6. The reason for their patentability is presented in the Remarks section of this amendment.
